Second Sino plane buzzes fishermen in Panatag

By Jerry E. Isidro

CHINA has asked all Philippine fishermen to leave the Panatag Shoal and wait a second aircraft landing over the area to ensure any Filipino fishermen, officials and military.

The Chinese plane, the Chinese Navy's 901, was seen flying over the Panatag Shoal and which is internationally known as Scarborough Shoal, according to a report by the Chinese media.

It is the first time since the 2012 incident that the Chinese plane has been seen flying over the Panatag Shoal.

In celebration of Earth Day 2012, we invite everyone to bring their recyclable materials to any SM Supermall on April 20 and get a free SM Eco Bag.

Reduce

• Energy Efficiency

With energy building automation systems and frequent air filter changes, air conditioning consumes 16.6% of the total energy.

• Saving Water

Through our water treatment system and water conservation, approximately 10,000,000 gallons of water are conserved each year.

• Lower Carbon Emissions

100 parking lots with solar panels and solar water heaters are installed, generating 100,000 kWh.

Re-use

• Eco Bag

Since January 2011, SM Supermalls have distributed and collected 100,000 Eco Bags. It is made of 100% recycled bag material.

Recycle

• Waste Segregation

SM Supermalls have installed waste segregation bins and waste segregation collection and consolidation.

• Recycling Cans

The 100% Cardboard Recycling Program is implemented and expanded. SM Supermalls have installed 100% Cardboard Recycling Bins and 100% Cardboard Recycling Bins.

3 senators support P-Noy's 'no-war' position

By Michael L. Lioy

SEN. JOSE ALZATE (D-Philippines) and Sen. Raul R. dela Rosa (D-Philippines) have joined Sen. Juan Ponce Enrile (D-Philippines) in supporting President Benigno Aquino III's 'no-war' position on the Panatag Shoal dispute with China.

Sen. Enrile said that the Philippines should not engage in a military conflict with China over the Panatag Shoal. He said that the Philippines should instead focus on strengthening its defense capabilities and maintaining peace in the region.

Second warship coming soon, says defense chief

By Ben E. Pineda

THE DEPARTMENT OF DEFENSE (DND) has announced that a second warship will be sent to the Panatag Shoal area in the near future. The warship is expected to arrive within the next few weeks.

The warship is expected to be a medium-sized patrol ship. It will be used to monitor the area and provide support for the Philippine Coast Guard. The warship will also be used to conduct maritime security operations.

8. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$ The probability of obtaining heads on the first coin and tails on the second coin is $\frac{1}{4}$.
 Pairs of the sample space are: (H, H), (H, T), (T, H), (T, T).
 The probability of obtaining heads on the first coin and tails on the second coin is $\frac{1}{4}$.

解: $P = \frac{1}{2} = \frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$ \therefore 有 2 个白球的概率为 $\frac{1}{4}$

Public Law 101-508, 114 Stat. 1654 (1999), amended the Federal Acquisition Regulation (FAR) to require that the FAR be updated annually. The FAR is the primary source of information for the acquisition of goods and services by the federal government. The FAR is a complex of rules and regulations that govern the acquisition process. The FAR is updated annually by the FAR Council, which is composed of representatives from the Department of Defense, the Department of State, and the General Services Administration. The FAR Council is responsible for ensuring that the FAR is updated to reflect changes in the acquisition process and in the needs of the federal government. The FAR is a critical tool for the federal government to acquire goods and services. The FAR is a complex of rules and regulations that govern the acquisition process. Figure 1 displays 16 small plots arranged in a 4x4 grid, showing the relationship between the number of species (S) and the number of individuals (N) for various taxa. The taxa are arranged in rows: Invertebrates, Fish, Birds, and Mammals. Each plot shows a different relationship, with some showing a clear positive correlation and others showing a more complex or non-linear relationship. The plots are labeled with the number of species (S) on the x-axis and the number of individuals (N) on the y-axis.

Whatever happened to the complaint vs Azkals?

Coach's Complaint
 The coach of the Philippine national football team, Luis Alonzo, has filed a complaint with the Philippine Football Federation (PFF) regarding the treatment of the national team. Alonzo claims that the PFF has not provided the team with the necessary support and resources to compete at the highest level. He also claims that the PFF has not been transparent in its financial dealings with the team. The PFF has responded by stating that it is committed to providing the team with the best possible support and resources. It also stated that it is currently reviewing the complaint and will take appropriate action if necessary.

PE: wild card

MANILA, April 15 (PNS) — The Philippine Economic Zone Authority (PEZA) is expected to be a wild card in the upcoming presidential election, with its future uncertain depending on the outcome of the polls.

PEZA, which has been instrumental in the development of economic zones in the Philippines, is currently under a review by the Department of Trade and Industry (DTI). The review is part of a broader effort to streamline government agencies and improve efficiency.

PEZA's future is particularly uncertain because it is a government-owned corporation. If the current administration is re-elected, it is likely that PEZA will continue to operate under its current mandate. However, if a new administration takes office, it may decide to restructure or even dissolve PEZA.

PEZA's role in the development of economic zones is crucial for the Philippines' economic growth. It has been successful in attracting foreign investment and creating jobs. However, it also faces challenges, such as land acquisition and infrastructure development.

The outcome of the upcoming election will have a significant impact on PEZA's future. It is important for the public to be aware of the potential changes and their implications for the country's economic development.

PEZA is a government-owned corporation established in 1995. Its mandate is to develop and manage economic zones in the Philippines. It has been successful in attracting foreign investment and creating jobs.

IMF: PH may grow at a faster clip despite problems

By Elizabeth C. Brown

உயர் அதிகாரிகள் மீது இதுபோன்ற தீவிர நடவடிக்கை எடுக்கப்படும்.

The collage consists of three distinct elements:

- Top Left:** A newspaper clipping from the "New York Times" dated April 4, 1968. The headline reads "FBI SEARCHES FOR SUSPECT IN KING SLAYING". The article discusses the FBI's efforts to identify the assassin of Dr. Martin Luther King Jr., mentioning that the suspect was believed to have fled the country.
- Bottom Left:** A black and white portrait of a man with dark hair, wearing a dark suit jacket over a light-colored shirt and a patterned tie. He is looking directly at the camera with a neutral expression.
- Right Side:** A promotional poster for the movie "THE BODY" by L. Ron Hubbard. The poster features the title in large, bold letters, followed by "by L. Ron Hubbard". Below this, it says "A FILM BY L. RON HUBBARD". At the bottom, there is a small image of a person's face and the word "CINEMA" in a stylized font.

How to judge a man by his car

When you see a man driving a car, you can tell a lot about him. The car he drives is a reflection of his personality, his taste, and his status. A man who drives a luxury car is likely to be successful and sophisticated. A man who drives a sports car is likely to be adventurous and energetic. A man who drives a practical car is likely to be responsible and reliable.

There are many factors to consider when judging a man by his car. The make and model of the car, the condition of the car, and the way the man drives the car are all important. A man who drives a well-maintained car is likely to be a responsible and reliable person. A man who drives a car that is in poor condition is likely to be a careless and irresponsible person.

The way a man drives a car is also a good indicator of his personality. A man who drives aggressively is likely to be a competitive and ambitious person. A man who drives defensively is likely to be a cautious and conservative person. A man who drives smoothly is likely to be a relaxed and easygoing person.

Be kind to Mother Earth—and not just this Sunday

Millions of Americans will be celebrating Mother's Day on Sunday, May 12. But what if you want to show your appreciation for the planet that sustains us all? Consider this: Mother Earth Day is celebrated every year on the third Sunday in June.

While many people associate Mother's Day with flowers and cards, the original intent of the holiday was to honor the Earth and the women who have worked to protect it.

Today, Mother's Day is a time to celebrate the women in our lives, but it's also a chance to reflect on the impact we have on the planet. By taking small steps to reduce our carbon footprint, we can all contribute to a healthier world.

There are many ways to celebrate Mother's Day sustainably. You can plant a tree, donate to an environmental organization, or simply spend time outdoors with your family. The important thing is to show your appreciation for the Earth and the women who care for it.

So, this Sunday, take a moment to pause and appreciate the beauty of the world around us. After all, Mother Earth is the only home we have.

For more information on sustainable living and how to celebrate Mother's Day responsibly, visit www.mothersday.org.

Happy Mother's Day to all the women who inspire us to be better.

1. *Chlorophyll a* (Chl a) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum. Chl a is essential for the light-dependent reactions of photosynthesis, where it converts light energy into chemical energy in the form of ATP and NADPH.

John Prats now more confident

By [Ramon S. Oros](#)

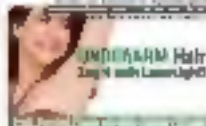

MANILA, Philippines — John Prats, the 31-year-old actor, has become more confident in his acting career. He has been in several movies and TV shows, and he has received positive feedback from his fans. He is now more confident in his acting skills and is looking forward to taking on more challenging roles.

Comic in the eye of domestic storm

By Dave Karger

Comic book characters are so much a part of our lives, it's hard to imagine a world without them. But what if they were?

In a new comic book, *Spider-Man: The Movie*, the character is shown in a way that is both familiar and new. The story is set in a world where the character is a superhero.

Out of the norm

In the most recent study, 17 men "volunteered" for the experiment, but it is not clear how many of them are actually gay or bisexual. "We don't know," says the study's lead author, Dr. David Gaeremynck, a professor of psychology at the University of Leuven in Belgium. "We don't know if they are gay or straight."
